NATURE MATTERS

Certificate of Completion

THIS IS TO CERTIFY THAT

Alice Sansonetti

HAS SUCCESSFULLY COMPLETED

Prioritizing Nature: Cohort 1

The core components of this course include: concepts of decision-science for nature; cognitive traps and shortcuts; common mistakes in priority setting; a decision-making framework; an introduction to different tools for structuring decisions for biodiversity (e.g. multi-criteria decision analysis [MCDA], cost-benefit analysis, cost- effectiveness and cost-utility); and the value of information theory, systematic conservation planning, and optimization approaches to spatial planning.

Dr. Jennifer McGowan

Prof. Hugh Possingham
